

CePSWaM

Course for Certified Environmental Professional in Scheduled Waste Management

Experiencing is Enriching

A progressive solutions partner enriching energy workforce for a sustainable future and adding value to the Business and Stakeholders

Certified Training Provider for EIMAS of the Department of Environment

CePSWaM

Course Overview

Safe handling and proper management of scheduled waste are crucial to prevent unintended exposure that will affect human health and pollute the environment. This 5-days course will provide you the essential knowledge in managing the waste while complying to legal requirements and industry best practices. Our experienced trainers in Scheduled Waste Management will share their best hands-on experiences through classroom activities and discussion of case studies.

Certificate of competency will be awarded by EIMAS to participants who successfully

- Complete 5-days course
- Pass the examination
- Submit a field training report

About Us

Over **45** years

of oil and gas technical training experience

More than **156,000**

Technical professionals trained

Training Capacity **1,000**

Trainees per year

Serving clients from over **50** Countries

Experiential learning & testbed via UDTP

UDTP offers hands-on learning to stimulate real-job environment

Learning Technology, Innovation & Experience

to prepare global workforce of tomorrow

Strong collaboration with authority & industry

Establish strong collaboration with authorities, regulatory & certification bodies to ensure high-quality programme

International Certification & Accreditation

OPITO & BTEC approved oil and gas technical qualification centre

Competent Experienced Trained

INSTEP is capable in delivering learning solutions as per global standard in meeting energy industry requirement
